

PRIYANSHU DHALL

AI/ML Engineer | GenAI & LangChain Developer | AWS Certified Cloud Practitioner

Gurugram, India | priyanshudhall2002@gmail.com | +91-8053887790 | linkedin.com/in/priyanshu-dhall-20354727a

PROFESSIONAL SUMMARY

MCA graduate (The NorthCap University) pivoting into Artificial Intelligence and Generative AI development. Certified in Generative AI (Certifort, Microsoft Partner) and AWS Cloud Practitioner. Hands-on experience building LangChain-based RAG pipelines and LLM-powered applications, backed by a solid foundation in Python, machine learning, and cloud infrastructure. Fast learner with strong problem-solving skills, eager to contribute to AI-driven products within a high-impact engineering team.

TECHNICAL SKILLS

AI / GenAI: LangChain, Prompt Engineering, RAG Pipelines, OpenAI API, LLM Integration, Vector Databases

Machine Learning: Python, Scikit-learn, Pandas, NumPy, Regression Modelling, Feature Engineering

Cloud & Version Control: AWS (EC2, S3, IAM, CloudWatch), Git, GitHub

Databases & Tools: ChromaDB, MySQL, VS Code, Streamlit

Web Development: HTML, CSS, JavaScript (responsive UI development)

PROJECTS

PDF Q&A Chatbot — RAG-based GenAI Application

Python | LangChain | ChromaDB | OpenAI API | Streamlit

- Built an end-to-end Retrieval-Augmented Generation (RAG) pipeline enabling users to upload PDF documents and receive accurate, context-aware answers to natural language questions.
- Implemented document chunking and embedding generation, storing vector representations in ChromaDB to enable fast, relevant semantic search over document content.
- Orchestrated retrieval and response generation with LangChain, integrating the OpenAI API as the LLM backbone to ground answers in retrieved document context and reduce hallucination.
- Designed and deployed an interactive Streamlit web interface for seamless PDF upload and real-time Q&A, delivering a complete, functional GenAI product from data ingestion to user-facing UI.

House Price Prediction Model

Python | Scikit-learn | Pandas | NumPy

- Built a regression-based ML model to predict real estate prices, covering the full pipeline from data cleaning and feature engineering to model training and evaluation.
- Applied cross-validation and metric analysis (MAE, RMSE) to measure model accuracy and ensure generalisability on unseen data.

EXPERIENCE

Frontend Web Development Trainee — MACS Training Centre

Sep 2024 – Feb 2025

- Completed a 6-month structured training program building and deploying responsive web interfaces using HTML, CSS, and JavaScript with cross-browser compatibility.
- Gained hands-on experience with Git version control, client-side validation, and professional development workflow practices in a simulated real-world environment.

EDUCATION

Master of Computer Applications (MCA) — The NorthCap University, Gurugram

2024 – 2026

CGPA: 7.5 / 10

Bachelor of Computer Applications (BCA) — Maharshi Dayanand University, Rohtak

2020 – 2023

CGPA: 6.5 / 10

CERTIFICATIONS & LANGUAGES

- Generative AI — Certifort (Microsoft Partner), 2025
- AWS Certified Cloud Practitioner — Amazon Web Services
- Data Analytics Job Simulation — Deloitte / Forage
- Languages: Hindi (Native), English (Professional Working Proficiency)
